# Take Back Your Garage

WITH A VARIETY OF SIZES AND CONFIGURATIONS TO CHOOSE FROM, VERSATILE BUILDING PRODUCTS CABINETS FIT ANY STORAGE NEED.

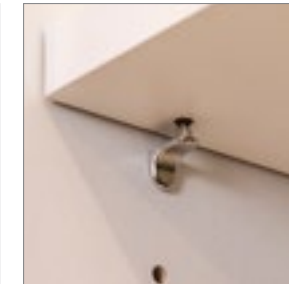

# BUILT TO LAST, DESIGNED FOR THE GARAGE.

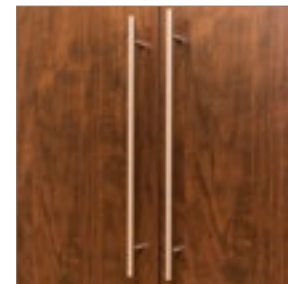

**Adjustable Shelves**  
¾-inch, adjustable shelves have the strength to hold heavy loads, and never leave you with wasted space.

**Shelf Safety Lock**  
With our standard safety lock feature, there's no need to worry about loose or falling shelves.

**Easy To Clean**  
Full, white melamine interiors are easy to clean and are light and bright, making it easy to find your items.

**Standard Pulls**  
Our standard brushed-steel door and drawer pulls offer a durable, clean and simple look.

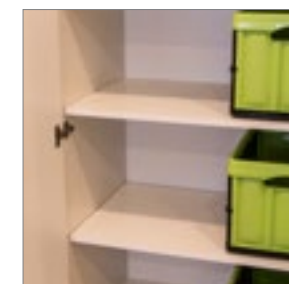

**Optional Channel Pulls**  
Consider the ultimate look with our optional channel pulls. Available in both silver and black finishes to complement any color.

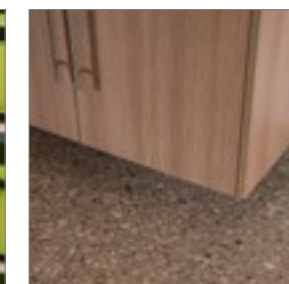

**Full Extension Drawer Slides**  
With our full extension drawer slides, there's no need to bend down and reach back into the drawer. Slow closing option is also available.

**European-Style Door Hinges**  
Our concealed European style door hinges provide a clean and sophisticated look. Slow closing option is also available.

**Full Backs**  
Full backs are a standard feature on our cabinets. Strong and mounted off the ground, these cabinets provide a clean, finished look.

**Applied Ends**  
Attached to the end of a run of cabinets, applied ends sit flush with the door or drawer face, giving our cabinets a finished, European look.

## IN 2009, VERSATILE BUILDING PRODUCTS RECOGNIZED THE EMERGING MARKET FOR SPECIFICALLY ENGINEERED AND DESIGNED GARAGE CABINETS.

## FULL BACKS ARE STANDARD STRENGTH OF BLIND DADO CONSTRUCTION

Today, our customers have the power to do a complete garage makeover using the strongest combination of products available. Designed for speed of installation, premium quality, and appearance, a typical garage, pantry-style cabinet can be assembled in about 15-30 minutes.

Versatile Building Products garage cabinets feature full backs and utilize blind dado construction to create an extremely strong joint. Standard handles have a bold look and are finished to look like brushed stainless steel, add optional extruded aluminum handles for a beautiful ultra-premium look.

Versatile Building Products is proud to be an American-Made manufacturer.
